Endorsement of the European Charter for Researchers and Code of Conduct for the Recruitment of Researchers (Charter and Code)

To whom it may concern,

The Mediterranean Institute for Life Sciences (MedILS) welcomes with great pleasure and supports the initiative of the European Commission to ensure a supportive research environment for researchers on mobility. Having endorsed the 40 principles of the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers, we notify you about our commitment to implement these principles via the Human Resources Strategy for Researchers (HRS4R) in our institute.

With several successful collaborations with scientists across the world, MedILS is one of the leading research institute in Croatia and by implementing the Charter and Code principles, MedILS aims at attracting the most outstanding researchers within the European Research Area and beyond.

Best regards,

Jelena Ruzic
Acting Director
