In accordance with the decision of its Council of Administration, the University of Agronomic Sciences and Veterinary Medicine of Bucharest renews its agreement upon the principles and requests presented in **The European Charter for Researchers** and in **The Code of Conduct for the Recruitment of Researchers** and also the wish to contribute to the development of an attractive and sustainable labour force market for researchers and not only.

We would like to mention that ever since the year of 2005 when the above mentioned documents and their principles were launched and especially since the year of 2010, when we first expressed our intention of adhering to these programs, the standards stipulated within this documents have been included in our research related procedures and activities.

In parallel with the changes that took and are taking place in our institution, the principles of the **Charter** and the **Code** have been and will be reflected in our activity and are yet to be further analyzed and reinforced within the University.

Taking all of this into consideration, we express our wish to strongly get involved in this process and to renew our endorsement of the Charter and Code and to also express our commitment to implement the HRS4R process for our full and fast integration in this endeavor.

RECTOR,
Professor PhD. Sorin Mihai Cîmpeanu
