# 1. Outline and Functions of JREC-IN Portal

# Japan's Science and Technology Policy

Promoting Science and Technology Policies based on “The Science and Technology Basic Plan”

## The Science and Technology Basic Plan

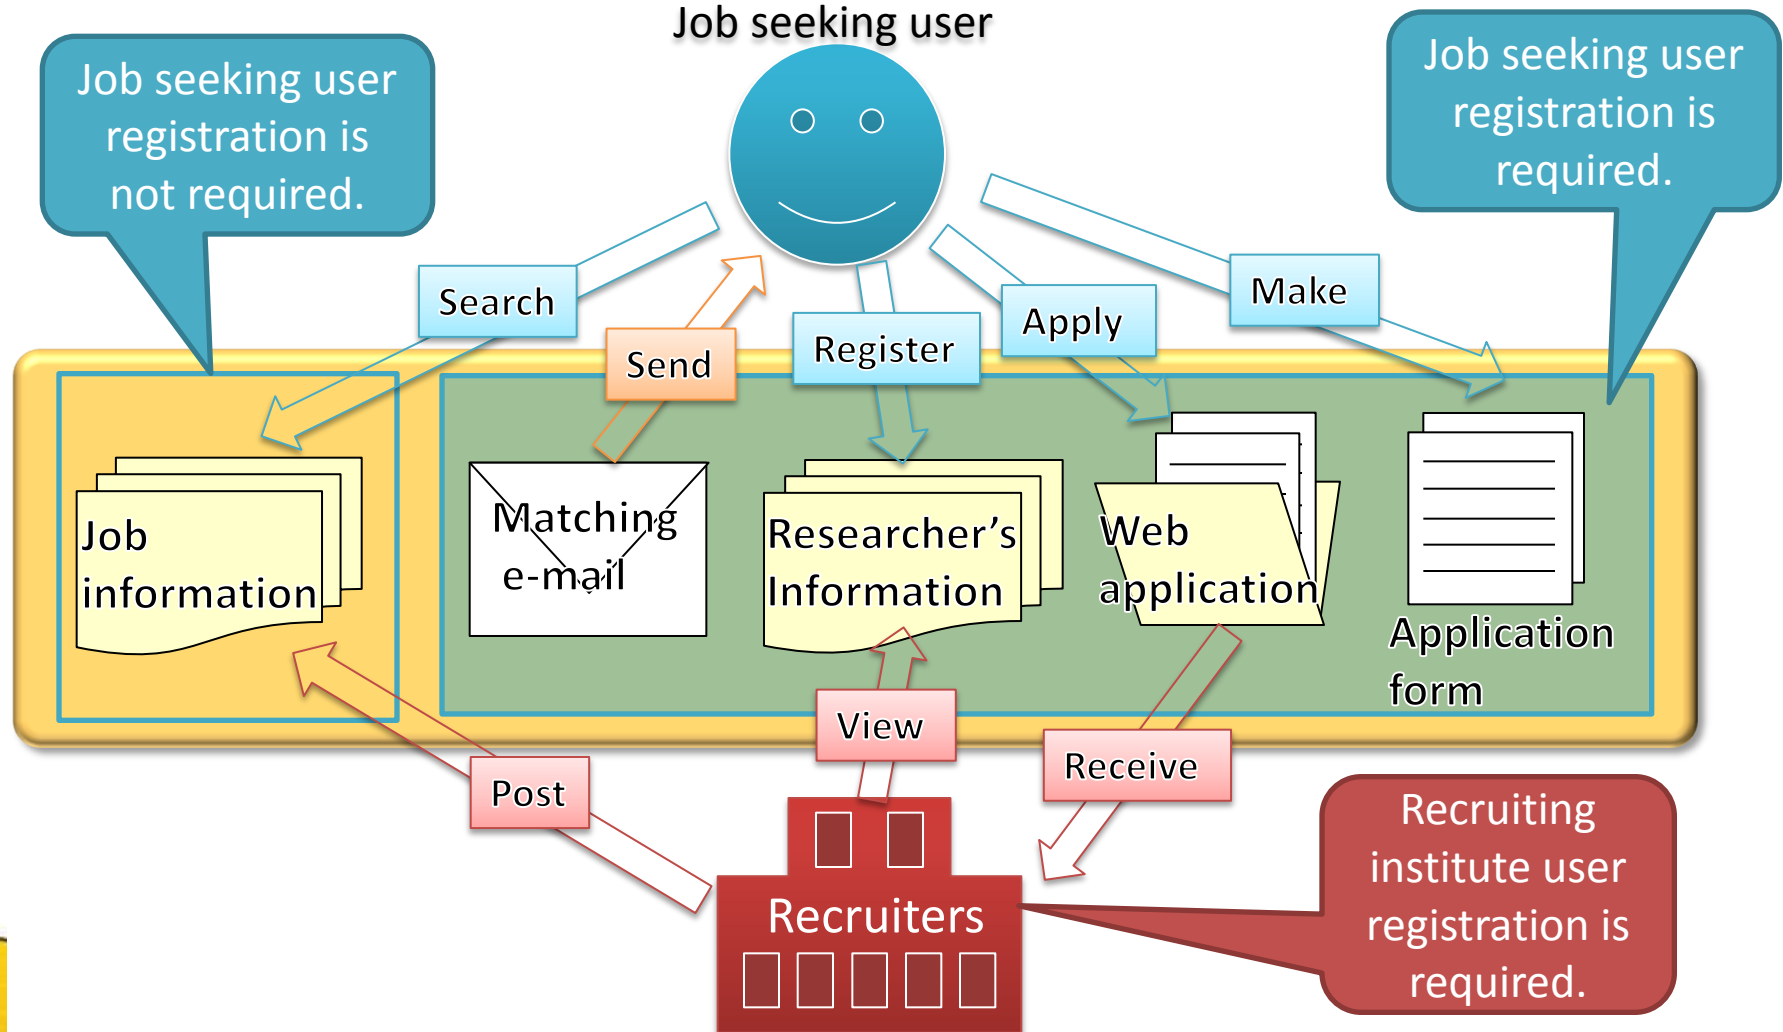

Develop international research networks by enhancing support for Japanese researchers going overseas and increasing the level of acceptance and retention of foreigners in Japan; promote greater mobility of personnel across disciplines, organizations, and sectors.

JREC-IN Portal contribute to the policy by supporting the matching between job seeking researchers and recruiting institutions.

# What is JREC-IN Portal?

A portal site that supports the career development of researchers and other research-related human resources.

| Content of job information       | We are soliciting applications for a Postdoctoral Researcher to work on a project entitled, "Pacific Ocean State Estimation and Clarification of the Mechanism of Ocean Circulation through the Synthesis of Global Observations Data" (Principal Investigator Shuhei Masuda, July1, 2015 to March 31, 2020). The project is funded through KAKENHI (Grant-in-Aid for Scientific Research (S)) of Japan Society for the Promotion of Science (JSPS).<br><br>These studies involve the synthesis of ocean turbulence data using an existing system for estimating the state of the global ocean that applies state-of-the-art assimilation techniques with an ocean general circulation model. The synthesized dataset is used to study topic(s) such as ocean circulation and ocean climate change. |

User registration

As the registration starts

**Eligibility for registering as User**  
Individuals working or seeking Jobs related to research and has related professional knowledge, experience or qualifications to those jobs.  
Individuals who desire to use the contents on JREC-IN Portal.  
(For further information, please refer Article 5 (User Registration Procedure) and Article 6 (Disapproved Causes of User Registration) of Regulations for Registered Users)

**Services provided after registering as User**  
[ Registering/Updating Job applicant information ]  
You can register Job applicant information 24/7.  
\* Information will be uploaded to the JREC-IN Portal site once per day for 30 minutes between 00:00 and 00:30.

[ Inquiry e-mails ]  
You will be able to receive Job applicant inquiry e-mails from Registered Recruiting Institutions, etc.)  
You need to register job applicant information to receive inquiry e-mails.  
In the [ Inquiry e-mail settings ] page, click "Agree to the above regulations and register."  
In the [ Inquiry e-mail settings ] page, enter your e-mail address and click "Send"

2. Setting Password  
An e-mail requesting to set your password will be automatically sent to the e-mail address that you entered. Check that you have received the e-mail, and then use your web browser to access the URL contained in the e-mail within three days.  
Enter your password and User Basic Information.

3. User Registration is completed  
You are registered as User on registering password and User Basic Information.

**Regulations for Registered Users**  
(Definition of Terms)  
Article 2. The terms used in this Regulation shall have the following meanings:  
(1) "JREC-IN Portal" is a collective term for the website called "Research Personnel Portal Site JREC-IN Portal (Japan Research Career Information Network Portal)" (<https://jrecin.jst.go.jp/>) and mail delivery and other services associated with the website.  
(2) "The Agency" has the meaning prescribed in Article 1.  
(3) "Job Applicant Information" has the meaning prescribed in Paragraph 1 of Article 8.  
(4) "Research Personnel" is a collective term for individuals working or seeking Jobs related to research and has related professional knowledge, experience or qualifications to those jobs.  
(5) "Jobs related to research" is a collective term for the following jobs:  
(i) Research jobs, Technical jobs or Educational jobs in the discipline of Natural Science, Humanities and Social sciences;  
(ii) Supporting and assisting work of the jobs determined in (i);  
(iii) Any other similar jobs determined in (i) or (ii), which requires professional knowledge, experience or qualifications in the discipline of Natural Science or Human and Social sciences.

## 2. Recruiting Institution of JREC-IN Portal

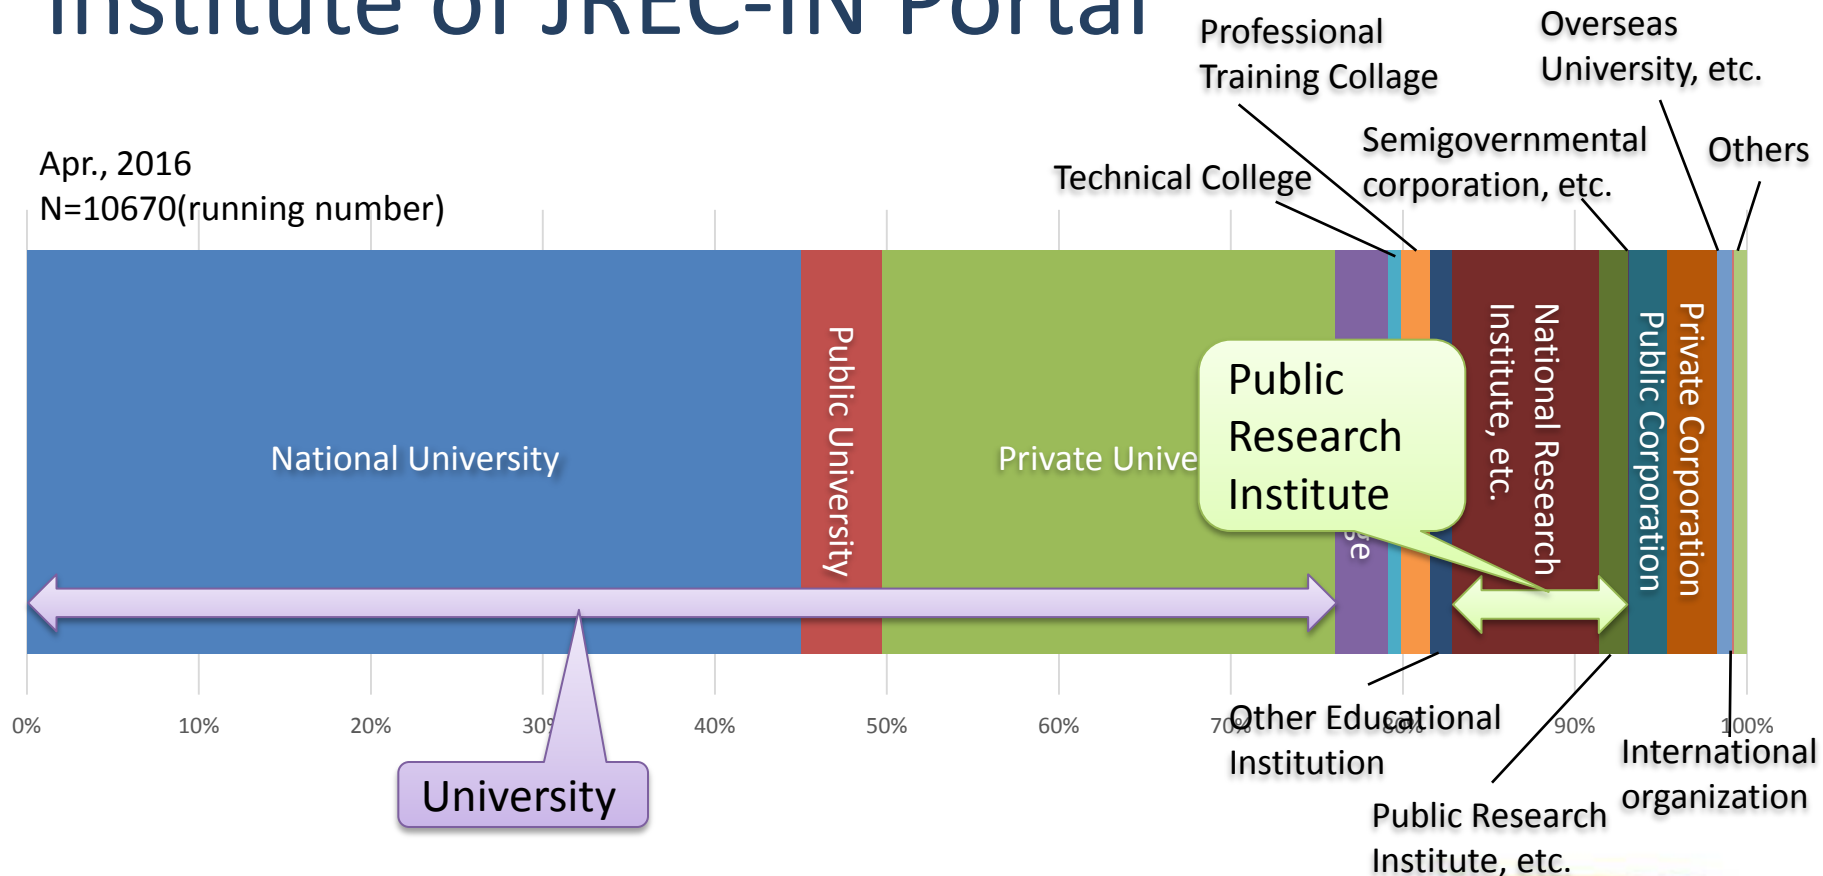

# The number of registered recruiting institutions

# The property of registered recruiting institute of JREC-IN Portal

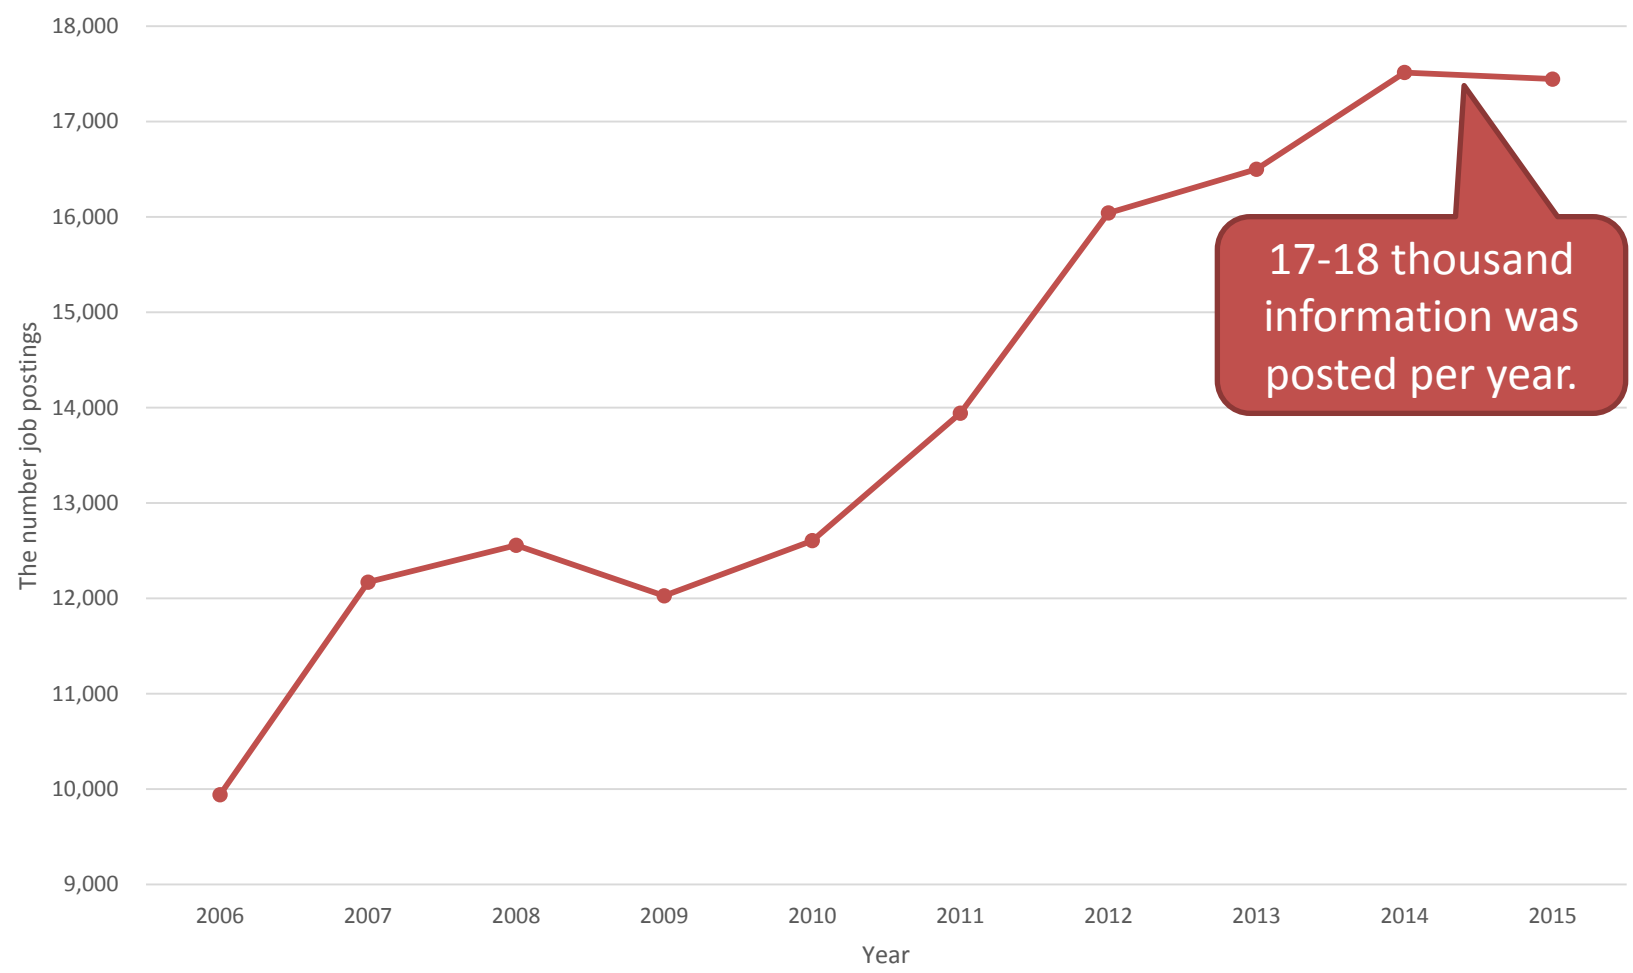

Almost all the universities and the public research institutes in Japan are registered as recruiting institute with JREC-IN Portal.

## 3. Job Information on JREC-IN Portal

# The number of job information

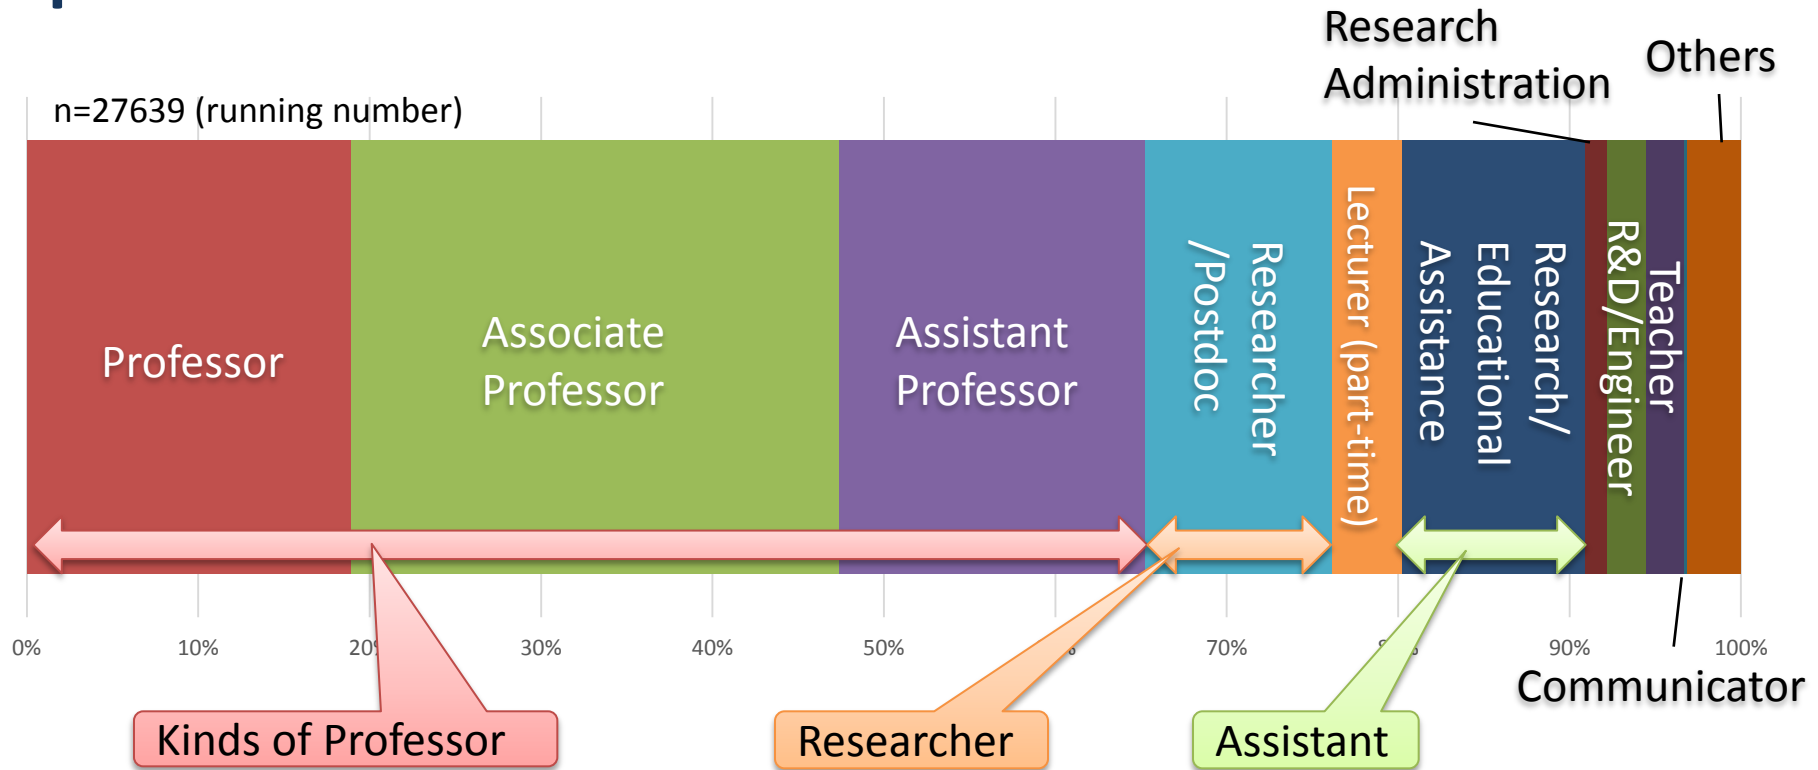

The number of job postings on JREC-IN Portal

17-18 thousand information was posted per year.

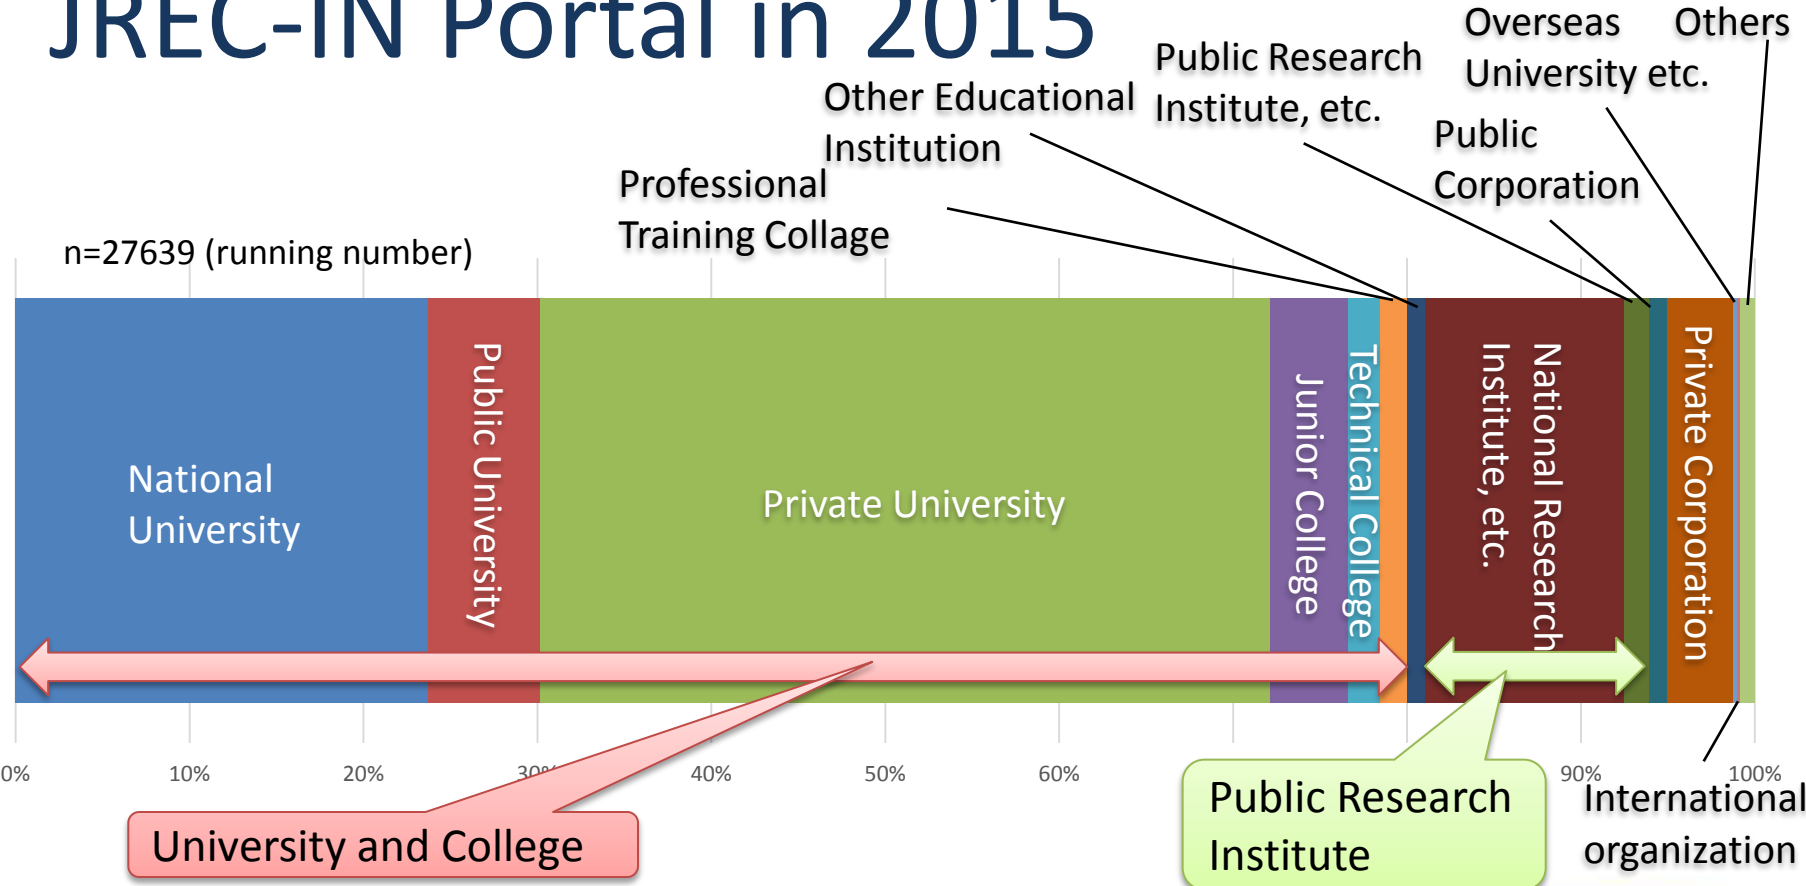

# The job types of information posted on JREC-IN Portal in 2015

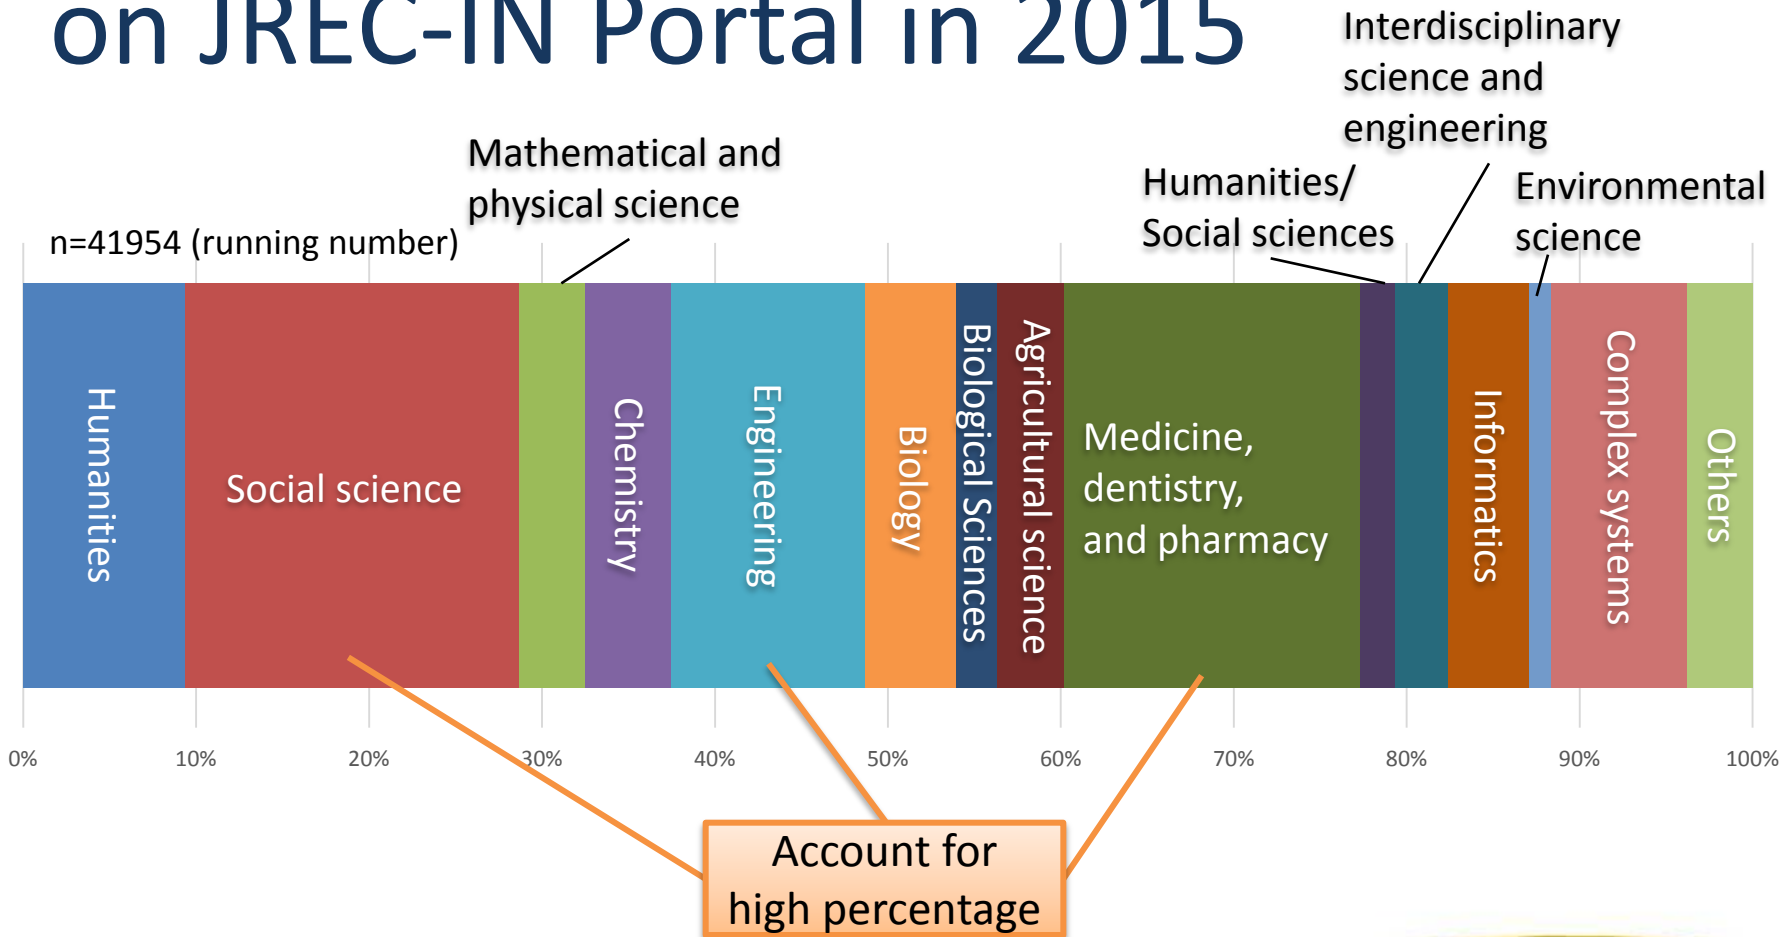

The job information of professor and researcher account for more than 75 percent. However, many of them are not tenured job.

# The institute of job information on JREC-IN Portal in 2015

Most of the job information is posted by University and Public Institute. JREC-IN Portal can gather almost all the academic job information of university and public research institute.

# The research field of job postings on JREC-IN Portal in 2015

The job information on JREC-IN Portal cover all the research fields. Especially, social science, engineering, medicine, dentistry, and pharmacy account for high percentage.

# Summary

- ☯ Japan government try to develop international research networks by increasing the level of acceptance and retention of foreigners in Japan.
- ☯ JREC-IN Portal is a portal site for supporting the career development of researchers including the people from other countries based on the policy.
- ☯ JREC-IN Portal gather almost all the academic job information of university and public research institute, but many of them are not tenured.
- ☯ The job information on JREC-IN Portal cover all the research fields.

# End

Thank you for your listening.  
I hope many European researchers can find good  
academic jobs in Japan through JREC-IN Portal!
